SUMMARY

Mobile and web developer, 3 years across React Native and React for web.

EXPERIENCE

React Native Developer, Imaginary Apps (2023 - present)

- Shipped two React Native apps to the Play Store, 20k combined installs.
- Shared a TypeScript component layer between the app and its React web portal.
- Set up CI with GitHub Actions running type checks and tests on every PR.

Web Developer (contract), Various clients (2022 - 2023)

- Built React single page apps for three small businesses.
- Handled state with Redux Toolkit and later with React Query.

PROJECTS

habit-app - React Native + Expo, offline-first, SQLite sync.

weather-web - React + Vite dashboard consuming a public REST API.

SKILLS

React, React Native, TypeScript, JavaScript, Redux, React Query, Git, Expo, CSS

EDUCATION

BSc Software Engineering, Invented Institute of Technology, 2022
